

Roofing Warranty

vertexroofingslc.com/roofing-warranty/

Vertex Roofing has a mission of repairing and replacing roofs in Salt Lake City, taking advantage of the roofing professionals in the community who can contribute to this end. ***If you contract work with Vertex Roofing, your roof will be under warranty, and Vertex is credentialed with both CertainTeed and Owens Corning.*** If you are looking for the best warranty for your money in Salt Lake City, you can't go wrong with Vertex Roofing, who is set up to enable you to find what you need for your roofing and all related needs.

CertainTeed Roofing Warranty

Here are some of the things you will be awarded under the coverage of your CertainTeed warranty:

- Non-prorated coverage throughout the entire protection period.
- Coverage of the cost of materials to replace bad shingles, including tear-off, and also metalwork, flashing, and disposal.
- Coverage of the cost of roofing materials and labor to replace or repair defective workmanship. This is guaranteed under the [Integrity Roof System](#).
- This warranty is transferable from original property owners to first subsequent owner for 15 years from the date of installation.
- You also have a 130 MPH wind warranty on lifetime shingles.

Owens Corning Warranty

With your Owens Corning warranty, here are some of the things you will be assured of receiving coverage on:

- Owens Corning hip & ridge shingles.
- [VentSure](#) exhaust ventilation products.
- Owens Corning shingles.
- Owens Corning starter shingle products.
- Owens Corning underlayment products.
- WeatherLock self-sealing ice & water barrier products.
- VentSure SotFit or InFlow intake ventilation products.

Benefits of a Roofing Warranty

The importance of maintaining a roofing warranty on your home or building cannot be overstated. It protects you from many things, including faulty materials and sloppy installation. ***If you have a warranty, you will always avoid the stress that comes with not being sure how much you're going to spend on your roofing repairs,*** and the truth is, there is a good chance the warranty will cover what you are worried about repairing on your own. Be sure, too, that you read your entire warranty, and try to ***make sure that you are knowledgeable about situations that may void your warranty,*** such as bad venting, putting in a new roof on top of an old one, using antennas and

satellite dishes, and pressure washing the shingles on your roof. You will want to avoid these things if you are serious about keeping your warranty working to serve your needs.
