

Shingle Replacement

✓ vertexroofingslc.com/shingle-replacement/

When the shingles on your roof are damaged or missing, due to age or weather, it is critical for you to replace them as soon as possible. Every day that you wait to replace your shingles, you are risking extensive water damages and an ever-increasing repair bill. ***Our experienced roofing contractors at [Vertex Roofing](#) can help you with [maintenance](#), [repairs](#), [inspections](#), or the replacement of the shingles on your home.***

When Do You Need to Replace the Shingles on your Roof?

Replacing your shingles before there is a problem is the best way to prevent expensive damage to your home. If you notice any of these issues with your home, it may be a good idea to consult a roofing specialist:

- There is a noticeable sag in the roof line;
- The textured shingles have become smooth, or you discover the granules from the shingles in your gutters;
- Your shingles are buckling, curling or missing, or
- You can see daylight through your roof.

Choosing the Right Shingles For Your Home

There are a lot of facts to consider before deciding on the right shingles for your home. **You need to consider a wide range of parameters including *appearance, performance, ease of installation*, and costs associated with each type of options.** It is always a good idea to speak with a professional roofing consultant to learn about the pros and cons of each type of shingle.

There are several popular types of shingles:

- **Various wooden shingles** add a beautiful, classic look to older homes. Wooden shingles are more expensive to purchase and install. They can last between 30 to 50 years.
- **Asphalt shingles** are a popular and inexpensive option for roofing. Asphalt shingles are common choices for many homeowners; Asphalt shingles can last up to 30 years.
- **Composite shingles** are a strong, inexpensive, and easy-to-install roofing option. They are extremely easy to install and are very durable with a life span of up to 50 years.

GAF Roofing Shingles

Vertex Roofing always recommends that homeowners use [GAF roofing shingles](#). Our [professional roofing contractors in Utah](#) install four different types:

- **Three-Tab Roofing Shingles** are a smart choice for homeowners with a limited budget. *These shingles offer a classic look and quality protection at an affordable price.*
